

**SAFETY PRECAUTIONS**

**Operator Protection:**

WASH HANDS AND EXPOSED SKIN before eating and after work.  
Keep away from children and pets.  
Engineering control of operator exposure must be used where reasonably practical in addition to the following protective equipment:  
WEAR SUITABLE PROTECTIVE GLOVES when handling the product or applying the product.  
However, engineering controls may replace personal protective equipment if a COSHH assessment shows that they provide an equal or higher standard of protection (UK only).

**Environmental Protection:**

Do not contaminate water with the product or its container. Do not clean application equipment near surface water.

**Storage and Disposal:**

KEEP IN ORIGINAL CONTAINER, tightly closed in a safe place.  
EMPTY CONTAINER COMPLETELY and dispose of safely.

Analysis	
Total Nitrogen (N)	4.0%
Total Iron (Fe)	2.8%

The COSHH (Control of Substances Hazardous to Health) regulations may apply to the use of this product at work. (UK only).

LAWN SAND 20KG

# LAWN SAND

Treats up to 250sq.m

Controls moss

Improves drainage

For use on amenity grassland  
and managed turf

LAWN SAND 20KG

Sinclair Lawn Sand contains 14.1%w/w Iron Sulphate Heptahydrate  
Causes serious eye irritation.

Keep out of reach of children.  
Wash hands thoroughly after handling  
Wear protective gloves and eye protection.  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
If eye irritation persists: Get medical advice/attention.  
Take off contaminated clothing and wash before reuse.

ROI – Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for empty clean containers which can be disposed of as non-hazardous waste.

To avoid risks to human health and the environment, comply with the instructions for use.

The Science of Growing

## LAWN SAND

**Sinclair Lawn Sand is a granular formulation containing 14.1% w/w Iron Sulphate heptahydrate (equivalent to 7.7% w/w iron sulphate), for the control of moss in amenity grassland and managed amenity turf.**

**DIRECTIONS FOR USE**

**IMPORTANT:**

This information is approved as part of the product label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.

Following application there may be darkening or blackening of the turf. This is temporary and will disappear.

**RESTRICTIONS**

Apply only to established turf.  
Do not allow granules or dust to contact foliage of neighbouring vegetation or water bodies.  
Do not use in drought, freezing conditions or when rain is imminent.  
If spilt on paving, concrete etc., brush off immediately to avoid discolouration.  
If no rain falls within 48 hours of treatment, irrigate treated area.  
Dead moss can be removed by raking or scarifying 7-14 days after treatment.  
Re-treatment may be necessary for heavy moss infestation, or if moss returns.

**APPLICATION**

Apply when moss is actively growing and soil is moist. Grass should not be cut 3 days before treatment and not cut again until at least 4 days after treatment.

Mark out areas to be treated and apply evenly at 80 grams per square metre. Apply with shaker pack, by hand or with suitably calibrated granular spreader.

**MOSS CONTROL TECHNIQUES**

The key to reducing moss is to have an effective all-year round management strategy incorporating the use of Sinclair Lawn Sand.

The following non-chemical techniques can be used to help reduce moss;

- Ensure the turf is healthy, weed, disease and pest free. This can be helped by fertilisation and regular maintenance.
- Soil aerating of the lawn to help to encourage the free passage of water & nutrients through the soil.
- Raking/scarifying to remove dead mosses and removal of fallen leaf debris to prevent the build-up of fibrous material which encourages weed and moss growth.

If all of these cultural management practices are followed in harmony with applications of Sinclair Lawn Sand then the reduction of mosses can be successfully achieved.
