

# Bank

An Ultra Low Volume formulation containing 6 g/litre of Deltamethrin and 54 g/litre of Piperonyl butoxide for use as an insecticide in food storage

# 15L

**FOR USE ONLY AS AN INSECTICIDE IN FOOD STORAGE  
FOR PROFESSIONAL USE ONLY**

## SAFETY INFORMATION

### WARNING

**Very Toxic to aquatic life with long lasting effects**

Keep out of reach of children  
Keep away from food, drink and animal feeding stuffs  
When using, do not eat, drink or smoke  
Wear protective gloves/protective clothing/eye protection/face protection.  
Avoid release to the environment  
Collect spillage

Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for triple rinsed empty containers which can be disposed of as non-hazardous waste.  
Do not contaminate water with the product or its container. (Do not clean application equipment near surface water/Avoid contamination via drains from farmyards and roads).

**To avoid risks to human health and the environment, comply with the instructions for use.**

**PCS No: 06403**

### Precautions

If exposed or if you feel unwell seek medical advice immediately (show the label where possible).  
No specific antidote is available. Treat symptomatically.  
In case of accident, call the 24-hour National Poisons Information Centre:  
Tel.: +353 (0)1 809 2566 or +353 (0) 1 837 9964.

Batch no.: See container

Registration holder: Sharda Cropchem España S.L.

Distributed by: Sharda Cropchem España S.L.

Emergency no.: In the event of emergency, call the National Poisons Information Centre, Beaumont Hospital at 01 809 2566 or 01 809 2166 or 01 837 9964  
Registered logos of Sharda Cropchem Ltd.

## General information

BANK is a liquid grain protectant for the control of stored product pests.

## Instructions for use

FOR PROFESSIONAL USE ONLY AS AN INSECTICIDE IN FOOD STORAGE				
Crop	Max. single dose	Max. no. of applications	Max. total dose	Last time of application
Stored grain and pulses	4.2 litres to 100 tonnes	1 per batch	4.2 litres to 100 tonnes	Not required
<b>READ THE LABEL BEFORE USE. USING THIS PRODUCT IN A MANNER THAT IS INCONSISTENT WITH THE LABEL MAY BE AN OFFENCE. FOLLOW THE CODE OF PRACTICE FOR USING PLANT PROTECTION PRODUCTS.</b>				
<b>Method of application:</b> Direct admixture to grain using an enclosed low volume fogger.				
<b>Important information:</b> The application rate provides up to 12 months protection against crawling insects and up to three months against flying insects i.e. moths.				
<b>Direct admixture with grain:</b> BANK is for direct treatment of bulk grain using (enclosed) low volume foggers. Cold fogging generates a very fine spray normally applied where grain falls at the elevator boot or in a closed conveyor. <b>DO NOT</b> be used in open elevators/conveyors or other non-enclosed application systems.				
<b>Company advisory information:</b> For maximum efficacy follow the grain storage guide published by the Home-Grown Cereals Authority (HGCA), the moisture content should be below 14.5% and the temperature below 12°C before admixture and during storage. Storage of grain with a higher moisture content will reduce the efficacy of the treatment.				
<b>Storage and disposal:</b> KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place. RINSE CONTAINER THOROUGHLY by using an integrated pressure rinsing device or manually rinsing 3 times. Dispose of washings safely. Use appropriate containment to avoid environmental contamination. <b>DO NOT RE-USE CONTAINER</b> for any purpose. Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for triple rinsed empty containers which can be disposed of as non-hazardous waste.				
<b>Resistance:</b> Where strains resistant to deltamethrin occur or develop, effective control will not be achieved.				

## Specific diseases controlled:

Control of stored product pests including crawling insects such as grain weevils, flour beetles, grain borers, saw-toothed grain beetles, bean weevils, flying insects such as rice moths, Indian meal moths and grain moths.
