**LIMA GOLD 5%**

Granular bait containing 5% w/w metaldehyde Molluscicide for control of slugs in agricultural and horticultural crops.

**25 Kg**

**Safety Information**

If medical advice is needed, have product container or label at hand. Keep out of the reach of children. Do not get in eyes, on skin, or on clothing. Wear protective gloves. Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for empty clean containers which can be disposed of as non-hazardous waste. To avoid risks to human health and the environment, comply with the instructions for use.

PCS No. 04961

**PRECAUTIONS**

If you feel unwell seek medical advice immediately (show the label where possible). Do not contaminate water with the product or its container. Do not clean down or wash equipment. If medical advice is needed, have product container or label at hand. Protect from frost, store in a dry, cool, frost-free ventilated area. Keep poultry out of treated areas for at least 7 days following application. To protect wild birds and wild mammals remove spillages. Keep dogs out of the field during application. When the applicators stop/starts, ensure no small heaps of pellets are left on the soil surface as they may be consumed by dogs and other animals. Spillages must be buried or removed.

**APPLICATION RECOMMENDATIONS**

Best results are achieved when application is made during mild, damp weather when slugs are the most active. When slug attack is heavy or prolonged, repeat treatments may be required.

**COMPANY ADVISORY INFORMATION**

Slug pellets are pesticides, keep pesticides out of water
- Pellets should not fall within 5m of the top of the bank of a watercourse or ditch. To achieve this, users should determine the spread width of the applicator with the product to be applied prior to any application (to the rear as well as the side of the applicator).
- Calibrate your applicator before use
- Fill and clean application equipment in the field
- Do not fill or clean down in the yard
- Avoid applying slug pellets when heavy rain is forecast
- Check that product packaging is intact and clear up spillages immediately

**FOR PROFESSIONAL USE ONLY AS AN AGRICULTURAL/HORTICULTURAL MOLLUSCIDE**

**IMPORTANT INFORMATION**

Read the label carefully before use. Using this product in a manner that is inconsistent with the label makes an offence. Follow the code of practice for using plant protection products.

LIMA GOLD is a molluscicide for the control of slugs in crops.

**DIRECTIONS FOR USE**

IMPORTANT: This information is approved as part of the Product Label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.

**RESTRICTIONS**

Professional use only
- DO NOT apply before heavy rainfall, which may reduce the persistence of granules. Late application of pellets to broad-leaved plants may result in lodging of the pellets in foliage. Care should be taken to avoid this during application in edible crops.
- Keep dogs out of the field during application. When the applicators stop/starts, ensure no small heaps of pellets are left on the soil surface as they may be consumed by dogs and other animals. Spillages must be buried or removed.
