

## SAFETY PRECAUTIONS:

### OPERATOR PROTECTION:

Wash hands and exposed skin after use.  
Wear suitable protective gloves when handling concentrate.

### ENVIRONMENTAL PROTECTION:

Do not contaminate water with the product or its container.

### STORAGE AND DISPOSAL:

Keep away from children and away from pets  
Keep in original container, tightly closed, in a safe place.  
Do not contaminate water with product or container. Do not clean application equipment near surface water.  
Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for empty triple rinsed containers which can be disposed of as non-hazardous waste.

To avoid risk to human health and the environment, comply with instructions for use  
MAPP 16896 PCS 05440

## Important Information

FOR USE ONLY AS A PROFESSIONAL MOSSKILLER  
For use in managed amenity turf.

### MAXIMUM INDIVIDUAL DOSE:

Up to 150ml per 10 sq. metres / 150 litres per hectare.

### LATEST TIME OF APPLICATION:

Early Autumn, when turf grass growth remains active.

### MAXIMUM NUMBER OF TREATMENTS:

3 per year.

### OTHER SPECIFIC RESTRICTIONS:

Spray volumes: the product must be applied in a total spray volume of at least 650l/ha (i.e 150 litres of product + 500 litres water per hectare).  
The undiluted product must not be applied directly to turf.

READ ALL OTHER SAFETY PRECAUTIONS & DIRECTIONS FOR USE BEFORE USED

# OMEX

## Ferromex Mosskiller Concentrate

MAPP 16896 PCS05440

A herbicide for professional use in managed amenity turf.  
A soluble concentrate formulation containing  
16.4% Iron Sulphate with 4.6% w/w Nitrogen.

## 20 Litres

BATCH NO: I22615

## DIRECTIONS FOR USE:

HORT74

**IMPORTANT:** This information is authorised as part of the Product Label.  
**All instructions within this section must be read carefully in order to obtain safe and successful use of this product.**

### RESTRICTIONS WARNINGS:

Avoid walking on treated areas until dry.  
If spilt on paving, concrete etc wash off immediately to avoid discolouration.

### MIXING AND SPRAYING:

#### Mixing

Gently invert the container once or twice before pouring into spray tank. Add water to the required volume.

### APPLICATION:

Apply 150 litres of Ferromex Mosskiller Concentrate in a total spray volume of at least 650 litres per hectare. (i.e. 150 litres product + 500 litres water).  
Do not use Ferromex Mosskiller Concentrate undiluted.  
Ferromex Mosskiller Concentrate can be applied in any type of sprayer calibrated to apply sprays at a volume of between 650 and 850 litres per hectare.  
It is most effective when applied to actively growing turf in moist conditions from early spring to early autumn.  
Do not use in drought, freezing conditions or when rain is imminent.  
Apply 3 days after and 4 days before mowing on a still day.  
Do not exceed the recommended dose.  
Rake out dead moss when it has turned black, usually 7-14 days after treatment.  
Re-treatment may be necessary for heavy moss infestation, or if moss returns.  
Do not apply more than 3 treatments per year.

### SPRAY QUALITY:

Use a **COARSE SPRAY** as defined by **BCPC ( NOZZLE SELECTION HANDBOOK)**.  
Avoid drift onto neighbouring areas as iron sulphate containing products can cause damage to susceptible crops and/or discolouration to hard surfaces.
