**Other specific restriction**

To protect aquatic organisms respect an unsprayed buffer zone of 5m to surface water bodies. For use in tractor mounted/trailed sprayers only. DO NOT apply by hand-held equipment. Livestock must be kept out of treated areas until poisonous weeds such as ragwort have died and become unpalatable. This product must not be applied between the end of September and beginning of March. DO NOT apply in volumes less than 200 litres of water per hectare. DO NOT apply if rain is forecast within 48 hours. DO NOT apply to saturated soils.

A soluble concentrate containing 500 g/L (44.25% w/w) MCPA as the dimethylamine salt. A selective herbicide for the control of many broad-leaved weeds in grassland.

Harmful if swallowed
Causes serious eye damage
Wash hands thoroughly after handling.
Do not eat, drink or smoke when using this product.
Wear protective gloves/ protective clothing/ eye protection/ face protection.
IF SWALLOWED: Call a POISON CENTER or doctor/ physician if you feel unwell.
Rinse mouth.
IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.
Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for triple rinsed empty containers which can be disposed of as non-hazardous waste.

To avoid risks to human health and the environment, comply with the instructions for use.

PROTECT FROM FROST
FOR PROFESSIONAL USE ONLY

SAFETY PRECAUTIONS
Operator protection
WEAR SUITABLE PROTECTIVE GLOVES AND FACE PROTECTION (FACESHIELD) when handling the concentrate.
WEAR SUITABLE PROTECTIVE GLOVES when handling contaminated surfaces.
WASH CONCENTRATE from skin and eyes immediately.
WASH HANDS AND EXPOSED SKIN before meals and after work.
WHEN USING DO NOT EAT, DRINK OR SMOKE. IF YOU FEEL UNWELL, seek medical advice (show the label where possible).

Environmental Protection
DO NOT CONTAMINATE WATER with the product or its container (Do not clean application equipment near surface water / Avoid contamination via drains from farmyards and roads).
KEEP LIVESTOCK OUT of treated areas until poisonous weeds such as Ragwort, have died and become unpalatable.
This product must not be applied between the end of September and beginning of March.

Storage and disposal
KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFFS.
KEEP OUT OF REACH OF CHILDREN.
KEEP IN ORIGINAL CONTAINER, tightly closed in a safe place.
WASH OUT CONTAINER THOROUGHLY and dispose of safely.
DO NOT RE-USE CONTAINER for any purpose.

DIRECTIONS FOR USE
IMPORTANT: This information is approved as part of the Product Label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.

RESTRICTIONS
• DO NOT roll or harrow within a week of spraying.
• DO NOT mow within four days of application.
• DO NOT treat newly established grass less than one year old.
• DO NOT treat grass suffering from drought, disease, during freezing conditions when rain is imminent or other adverse factors.
• Extreme care must be taken to avoid spray drift onto non-crop plants outside of the target area.
• DO NOT spray in windy weather, avoid drift on to neighbouring crops, especially beans, beet, brassicas, carrots, legumes, lettuce and tomatoes which are very susceptible.
• DO NOT apply before undersowing.
• WASH EQUIPMENT thoroughly immediately after use. Rinse with water three times, drain and allow to dry. Traces of herbicide left in the sprayer may damage susceptible crops if these are subsequently sprayed using the same equipment.
• DO NOT apply in volumes less than 200 litres of water per hectare.

- Yarrow

CROP SPECIFIC INFORMATION
Always spray when the crop is actively growing.

Grassland
Application rate: 2.7 L product/ha
Maximum total dose: 5.4 L product/ha
Use on established grassland and leys no less than 1 year old. Apply POL-MCPA 500 SL in spring and summer when growing conditions are favourable. Spray grass for hay or silage 3–4 weeks before cutting. Clover may be checked but not destroyed by the following spring. Follow-up applications may also be needed where new seeding weeds appear. An interval of 4–6 weeks should elapse between successive applications if weeds persist.

Grassland (seed crops)
Application rate: 2.7 L product/ha
Maximum total dose: 2.7 L product/ha
The safe period for treatment occurs when the grasses have at least four leaves and have begun to tiller but at least five weeks preceding ear emergence. The best time varies according to the species and strain of grass concerned. Do not apply more than 2.7 L/ha of POL-MCPA 500 SL.

Grassland (seed crops)
Application rate: 2.7 L product/ha
Maximum total dose: 2.7 L product/ha
The safe period for treatment occurs when the grasses have at least four leaves and have begun to tiller but at least five weeks preceding ear emergence. The best time varies according to the species and strain of grass concerned. Do not apply more than 2.7 L/ha of POL-MCPA 500 SL.

MIXING AND SPRAYING
Half-fill the tank with clean water and add the required quantity of POL-MCPA 500 SL, and add the remainder of the clean water with gently agitation which should continue until the contents are thoroughly mixed. Spray using a MEDIUM/COARSE spray (BCPC).

TANK CLEANING
WASH EQUIPMENT thoroughly immediately after use. Rinse with water three times, drain and allow to dry. Traces of herbicide left in the sprayer may damage susceptible crops if these are subsequently sprayed using the same equipment.

COMPATIBILITY
POL-MCPA 500 SL can be tank-mixed with other pesticides, please consult your distributor.

RESISTANCE MANAGEMENT
When herbicides with the same mode of action are used repeatedly over several years in the same field, selection of resistant biotypes can take place. These can propagate and may become dominating. A weed species is considered to be resistant to a herbicide if it survives a correctly applied treatment at the recommended dose. A strategy for preventing and managing such resistance should be adopted. This should include integrating herbicides with a programme of cultural control measures. Guidelines have been produced by the Weed Resistance Action Group and copies are available from the HGCA, CPA, your distributor, crop adviser or product manufacturer.

TERMS AND CONDITIONS OF SUPPLY, SALE OR USE
All goods supplied by us are high grade and we believe them to be suitable for the purpose for which we expressly supply them: but as we cannot exercise any control over their mixing, use or application which may affect the performance of the goods all conditions and warranties statutory or otherwise as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or our Associate Companies for any damage or injury whatsoever arising from their storage, handling, re-application or use. These conditions cannot be varied by our staff, our agents or the re-sellers of the product whether or not they supervise or assist in the use of such goods.
