

Biocidal Products Register

Date: April 2011

The Department of Agriculture Fisheries and Food is the Competent Authority responsible for the implementation of the biocides legislation in Ireland. The Biocidal Products Directive 98/8/EC is given effect in Irish law by Statutory Instrument S.I. No. 625 of 2001. Details of Irish legislation are available at <http://www.irishstatutebook.ie>

The Irish legislation requires that all biocides on the market in Ireland must be notified to the Department of Agriculture, Fisheries and Food. This notification process is a transitional measure, which will allow the products concerned to remain on the market pending completion of the EC biocides review programme specified in Directive 98/8/EC. The following is a list of products that are currently notified to the Department of Agriculture Fisheries and Food. This register will be updated on a regular basis, to reflect new notifications and non-inclusions/product withdrawals.

Only Biocidal products that are notified to DAFF may be legally placed on the Irish market.

Postal Address: Pesticide Registration and Control Division,
Department of Agriculture and Food
Laboratories,
Backweston Campus,
Young's Cross,
Celbridge,
Co. Kildare
