

Notified Biocidal Products Register

Date: May 2012

The Department of Agriculture Food and the Marine is the Competent Authority responsible for the implementation of the biocides legislation in Ireland. The Biocidal Products Directive 98/8/EC (BPD) is given effect in Irish law by Statutory Instrument S.I. No. 625 of 2001 (as amended). Details of Irish Legislation are available at <http://www.irishstatutebook.ie>

The Irish Legislation requires that all biocides on the market in Ireland must be notified to the Department of Agriculture, Food and the Marine. This notification process is a transitional measure, which will allow the products concerned to remain on the market pending completion of the EC biocides review programme specified in Directive 98/8/EC. The following is a list of products that are currently notified to the Department of Agriculture, Food and the Marine. This register will be updated on a regular basis, to reflect new Notifications and Non-Inclusions / product withdrawals.

Only Biocidal products that are notified to DAFM may be legally placed on the Irish market.

Postal Address:

Pesticide Registration and Control Division
Department of Agriculture and Food Laboratories
Backweston Campus
Celbridge
Co. Kildare
Ireland
