

PP CAPTAN 80 WG

FUNGICIDE

PCS No 04018

Fungicide with preventive action against scab (*Venturia spp.*) on apples and pears.
PP CAPTAN 80 WG - Water dispersible granule formulation containing 80% w/w captan

Risk and Safety Information

PP CAPTAN 80 WG contains 80% w/w captan.
DANGER

May cause an allergic skin reaction.
Causes serious eye damage.
Very toxic to aquatic life.
Suspected of causing cancer.

Avoid breathing gas.
Wear protective gloves/protective clothing/eye protection/face protection.
If skin irritation or rash occurs: Get medical advice/attention.
Wash contaminated clothing before reuse.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If exposed or concerned: Get medical advice/attention.
Collect spillage
Dispose of contents/container to a licensed hazardous-waste disposal contractor or collection site except for triple rinsed empty clean containers which can be disposed of as non-hazardous waste

To avoid risks to human health and the environment, comply with the instructions for use

UFI:DRFX-WNMY-DH2H-REKP

PCS No.04018

For professional use only

IMPORTANT INFORMATION FOR PROFESSIONAL USE ONLY AS A FUNGICIDE

Crops	Maximum individual dose	Maximum number of treatments (per year)	Latest time of application
Apple	1.5 kg product/ha	6	31 days before harvest
Pear	1.5 kg product/ha	6	31 days before harvest

Other Specific Restrictions:

Only apply the product with application equipment that increases the precision and accuracy of the application (e.g. emission shields, shielded sprayers, hooded sprayers, tunnel sprayers, sensor-controlled sprayers), and, while maintaining the application rate on the target surfaces, achieves an average reduction of at least 61 % of the applied plant protection product (per hectare) and a minimum of 20 % reduction of plant protection product loss to the ground compared to applications via conventional application equipment and practice
To protect bees, do not apply to crops when in flower and do not apply when flowering weeds are present.

A minimum interval of 10 days must be observed between applications.
The maximum concentration must not exceed 1.7 g of product per 1 litre water when applying to apples by hand held equipment.
Spray equipment must only be used where the operator's normal working position is within a closed cab on a tractor or on a self-propelled sprayer when making air-assisted applications to top fruit.

READ THE LABEL BEFORE USE. USING THIS PRODUCT IN A MANNER THAT IS INCONSISTENT WITH THE LABEL MAY BE AN OFFENCE. FOLLOW THE CODE OF PRACTICE FOR USING PLANT PROTECTION PRODUCTS

SAFETY PRECAUTIONS

Operator protection

Spray equipment must only be used where the operator's normal working position is within a closed cab on a tractor or on a self-propelled sprayer when making air-assisted applications to top fruit.
WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS), SUITABLE PROTECTIVE GLOVES AND FACE PROTECTION (FACESHIELD) when handling the concentrate.
WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS) AND SUITABLE PROTECTIVE GLOVES when handling contaminated surfaces or applying by hand-held equipment.

IF YOU FEEL UNWELL, seek medical advice immediately (show the label where possible).

Environmental protection

Dangerous to bees. Do not spray during the flowering period.
In order to minimise drift and to ensure the protection of non-target organisms, application equipment that increases the precision and accuracy of the application should be used in order to reduce by at least 61% of the applied plant protection product (per hectare) and a minimum of 20% reduction of plant protection product loss to the ground compared to applications via conventional application equipment and practices

To protect aquatic organisms respect an unsprayed buffer zone of 30 meters to surface water bodies.
Do not contaminate water with the product or its container. Do not clean application equipment near surface water. Avoid contamination via drains from farmyards and roads.

Storage and disposal

EMPTY CONTAINER COMPLETELY and dispose of safely.
DO NOT RE-USE CONTAINER FOR ANY PURPOSE

DIRECTIONS FOR USE

IMPORTANT: This information is approved as part of the Product Label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.

RESTRICTIONS OR WARNINGS

Do not spray on Bramley, Kidd's Orange, King Edward, Monarch, Red Delicious, Spartan or Winston apples or D'Anjou pears, as these may be sensitive.

CROP SPECIFIC INFORMATION

For the control of Scab in apples and pears

Rate of use: Max 1.5 kg product/ha in a minimum of 500 L/ha water according to the foliar coverage.

Timing: Apply at bud burst and repeat at 10 day intervals, maximum 6 applications per season.

Pre-Harvest Interval: 31 days.

MIXING

Before use ensure all equipment is clean. Agitate the product thoroughly before and during application.

For hydraulic sprayer: Add half the required volume of water and start agitation, add the required quantity of PP CAPTAN 80 WG. Fill the tank to the required volume whilst maintaining agitation. Continuous agitation must be maintained until spraying is complete. Use only clean water.

For knapsack sprayer: mix thoroughly and use immediately.

Applications

Good coverage is essential. Apply to orchards with a water volume adapted to the vegetation size up to short of run-off.

Ensure the sprayer is correctly calibrated before use. Do not leave spray liquid in the sprayer for long periods (i.e. during meals or overnight).

Immediately after spraying, rinse inside of spray tank with clean water and flush through nozzles using at least one-tenth of spray tank volume. Drain completely. Thoroughly clean any measuring equipment after using PP Captan 80 WG.

PP CAPTAN 80 WG is a preventive fungicide so the first application should be made just before disease is expected to appear, with repeat applications at the recommended intervals for so long as protection is required.

COMPATIBILITY

Sprayers previously used to apply alkaline materials or oils must be thoroughly washed out before using PP CAPTAN 80 WG.

This product is to be used only in accordance with the recommendations and instructions given on the labels provided with this pack. Use in any other circumstances is entirely at user's risk.
