A wettable powder containing 461 g/kg (46% w/w) prochloraz. A fungicide for the control diseases in indoor mushrooms.

Risk and Safety Information

Warning:
Very toxic to aquatic life with long lasting effects.

Avoid release to the environment. Collect spillage.
Wear suitable protective gloves/ protective clothing/eye protection/ face protection.
Wear respiratory protection.
Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for clean empty containers which can be disposed of as non-hazardous waste.

To avoid risks to human health and the environment, comply with the instructions for use.

PCS No: 05094
IMPORTANT INFORMATION

FOR USE ONLY AS A HORTICULTURAL FUNGICIDE, as directed below:

For professional use only.

READ THE LABEL BEFORE USE. USING THIS PRODUCT IN A MANNER THAT IS INCONSISTENT WITH THE LABEL MAY BE AN OFFENCE.

SAFETY PRECAUTIONS

Operator protection
Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment:
WEAR SUITABLE PROTECTIVE GLOVES AND SUITABLE RESPIRATORY PROTECTIVE EQUIPMENT* when handling the product. *disposable filtering facepiece respirator to at least EN149 FFP2.
WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS) and SUITABLE PROTECTIVE GLOVES when applying the product.
WASH ALL PROTECTIVE CLOTHING thoroughly after use, especially the insides of gloves.
WHEN USING DO NOT EAT, DRINK OR SMOKE.
WASH HANDS AND EXPOSED SKIN before meals and after work.

Environmental protection
Do not contaminate water with the product or its container. Do not clean application equipment near surface water. Avoid contamination via drains from farmyards and roads.
This product must only be used on mushrooms where the spent mushroom compost will be spread on land at a maximum rate of 12 t/ha.

Storage and disposal
KEEP OUT OF REACH OF CHILDREN.
KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFFS.
KEEP IN ORIGINAL CONTAINER, tightly closed in a safe place.
WASH OUT CONTAINER THOROUGHLY, empty washings into spray tank and dispose of safely.
PROTECT FROM FROST.
DIRECTIONS FOR USE
IMPORTANT: This information is approved as part of the Product Label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.
Sporgon 50 WP is a fungicide for the control of *Verticillium* (dry bubble) and *Cladobotryum* spp. (*Dactylium dendroides*) (cobweb) diseases in mushrooms.

1. Restrictions/Warnings
   For professional use only.
   On some mushroom strains under certain conditions, as with other chemicals, a degree of malformation or crop delay may occur.
   Disease control is only likely to persist for approximately 14 days.

2. Resistance management
   The efficacy of this product may be affected if strains of disease pathogens resistant or less sensitive occur at any time. There is evidence that certain populations of *Verticillium fungicola* may be resistant to prochloraz.

3. Crop specific information
   Sporgon 50 WP is a fungicide for the control of *Verticillium* (dry bubble) and *Cladobotryum* spp (*Dactylium dendroides*) (cobweb) diseases in mushrooms.

3.1 Method of Application
   Apply using a hand-held/knapsack sprayer or a gantry sprayer.

3.2 Rate of Application
   Sporgon 50 WP should be applied at a rate of 100g in up to 180 litres of water per 100m2 of bed area.

3.3 Time of application
   Sporgon 50 WP is recommended as a spray treatment 2-9 days after cover-up. A maximum of one application may be made. Ten days must elapse between spray application and harvest.

4. Mixing and Spraying
   Never prepare more spray solution than is required.
   Three quarters fill the spray tank with clean water and start the agitation. To ensure thorough mixing of the product, invert the container several times before opening. Add the required quantity of Sporgon 50 WP to the spray tank while re-circulating. Add the remainder of the water and continue agitation until spraying is complete.
   On emptying the container, rinse container thoroughly by using an integrated pressure rinsing device or by manually rinsing three times. Add washings to tank at time of filling and dispose of container safely.
The following does not form part of the product label under S.I. No. 159 of 2012:

With many products there is a general risk of resistance developing to the active ingredients. For this reason a change in activity cannot be ruled out. It is generally impossible to predict with certainty how resistance may develop because there are so many crop and use connected ways of influencing this. We therefore have to exclude liability for damage or loss attributable to any such resistance that may develop. To help minimise any loss in activity the BASF recommended rate should in all events be adhered to.

Numerous, particularly regional or regionally attributable, factors can influence the activity of the product. Examples include weather and soil conditions, crop plant varieties, crop rotation, treatment times, application amounts, admixture with other products, appearance of organisms resistant to active ingredients and spraying techniques. Under particular conditions a change in activity or damage to plants cannot be ruled out. The manufacturer or supplier is therefore unable to accept any liability in such circumstances. All goods supplied by us are of high grade and we believe them to be suitable, but as we cannot exercise control over their mixing or use or the weather conditions during and after application, which may affect the performance of the material, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us for any damage or injury whatsoever arising from their storage, handling, application or use; but nothing should be deemed to exclude or restrict any liability upon us which cannot be excluded or restricted under the provisions of any applicable law.

The information on this label is based on the best available information including data from test results.
