Re: Pesticide Equipment Inspector (EI) Course

Teagasc will hold a Pesticide Equipment Inspector Trainer Course on Tuesday 30th April and Wednesday 1st May 2024 (2-day course). This course will be filled on a 'first come first served' basis so early booking is essential.

If you are interested in attending this course and becoming a registered EI, please contact aleksandra.stanczyk@teagasc.ie for further information and the relevant application form.

This course will be held at Teagasc, Kildalton College, Piltown, Co. Kilkenny (E32 YW08) and will run from 9.30am to 5.00pm on each day.

The Sustainable Use Directive (SUD) Directive 2009/128/EC regulates the use of PPP's and requires that sprayers in professional use are inspected.

Sprayer tests must be carried out by independent Equipment Inspectors (EI's) who have been appropriately trained and are registered with the Department of Agriculture, Food and the Marine (DAFM).

Successful completion of this course will ensure the participants name will be included on the Department of Agriculture, Food and the Marine's (DAFM) register of sprayer Equipment Inspectors.

All relevant information on EI's is available at:
